"Never Worn White", è il nuovo singolo di Katy Perry. La ballata è stata scritta da Katy con Johan Carlsson, John Ryan, Jacob Kasher Hindlin e prodotta da Carlsson.

Il brano è accompagnato dal video diretto dal duo di registi parigini J.A.C.K. (Madonna, Christine and the Queens), dove la cantante si mostra chiaramente con il pancione. Katy Perry ha così annunciato di aspettare un bambino per l'estate con il fidanzato Orlando Bloom.

"Never Worn White"

You love the hell out of me
And heaven's what we could be
I've stood on the edge of love
But never took the leap

And you took my armor off
Did it delicately
And I let my guard down
To show you what's underneath

Thank God that you were man enough to come
Answer my mamma's prayers
You asked the question
I said yes, but I'm scared

'Cause I've never worn white
But I wanna get it right
Yeah, I really wanna try with you
No, I've never worn white
But I'm standing here tonight
'Cause I really wanna say, I do? I do

See us in sixty years with a full family tree
Give my blood, sweat, and tears to reach our destiny
'Cause love is a minefield, let's take this walk, baby
'Cause at the end of it all, I choose and you choose me

Thank God I was woman enough to come

Answer your father's prayers
You asked the question
I could tell you were scared

'Cause I've never worn white
But I wanna get it right
Yeah, I really wanna try with you
No, I've never worn white
But I'm standing here tonight
'Cause I really wanna say, I do? I do

Now let's dance with each other
Mixing all of our colors
It's so easy to surrender
When you finally find forever

No, I've never worn white, no
But I really wanna try with you, yeah

I've never worn white
But I wanna get it right
'Cause I really wanna say, I do

'Cause I do
Oh, I do, yeah, yeah
I do
